

Dear Friends,

It was a pleasure to serve the residents of Kinross Township as the Deputy Supervisor. I look forward to serving the public as Clerk. Much needs to be done at the Township level to increase the communications to the public. Currently, the Township does not post the regular meeting minutes in the local newspaper and the website has been neglected.

“When I am elected Clerk I pledge to continue my work on video recording the Board minutes and will make the recordings available online as they are now currently on the Kinross Business Association website www.kinross.biz . The current Township Clerk has been there too long. We need to modernize our Clerk office and adapt. I am proud of my work on the Kinross Business Association as the founder and President. I am committed to continuing my efforts to energetically promote Kinross as a great place to do Business and a great place to live.

As your Township Clerk I pledge:

- that I will not accept perk's from insurance companies like our current Township Clerk does
- that I will be in the Township office doing the people's work at least 20 hours a week.
- that I will not accept taxpayer paid health insurance. **Even though they passed a motion to eliminate the health insurance and give themselves a raise they can just as quickly reinstate it and get the raise plus the insurance. We must take the additional steps to monitor their actions.**
- that I will dramatically improve the Townships website and make more services available online as well as in print
- that I will do everything I can to fix the Townships storm sewer system
- that the policy for Freedom of information (FOIA) requests will be to charge only minimum fees
- that I will continue to have the Board meetings video recorded and provided online and archived
- that I will immediately upon being elected at our first meeting introduce a resolution expressing the disappointment of the residents of the Township that R.J. Wallis was closed and pledge to work with the school system to reopen the school
- that I will work to insure that current business have everything they need to be successful and keep them in Kinross and to seek other viable businesses to open in Kinross.

I am extremely excited about this campaign, and I hope this energy will be felt by all we come in contact with over the next several months. Serving as your Township Clerk would be an honor and a privilege. I look forward to personally meeting you as I go door to door, neighborhood to neighborhood, listening to folk's views and suggestions. We face big issues - requiring fresh solutions - working together. Please consider my background as a citizen volunteer, public leader and businessman. Tools I hope to put to work for you and our Township's future. I pledge to place the public's interest first - never caving-in to selfish, special interests. My primary goal is to return Honesty, respect and responsive representation back to the Clerk position. With your help, I will be an advocate and positive voice for our community.
